I was standing in the crowd when I heard gunshots. At the time I did not realize they were gunshots, I thought they were part of the performance. I was center of the crowd when I then heard "everybody get down". I dropped to the floor and a woman ~~was~~ to my right had a crowd of people standing around her. I realized she was shot and badly injured. It was then that everything set in. I crawled to the nearest safe place. I ended up crawling to a shop that was selling drinks. After crawling there I realized it was not safe and ran out to the parking lot and got in a random persons truck that later took me to a place on the strip that does helicopter tours. I ended up getting a ride home after that.

DETAILS I was to the left of the Stage approx. 10ft from the front and 5ft from the rail to my right, there were shots that sound like a toy gun that rang out. The performer ran back Stage and people were looking around then everyone hit the ground after about 20 seconds I saw a few people standing so I stood up and looked around. My friend pulled me back to the ground, then seconds later everyone started running. I looked over to my right by the rail to my 4 o'clock and saw blood all over the ground and someone laying not moving, as the crowd ran in all directions I ran away from the Stage. the crowd stayed low and ran until we were behind another building.

DETAILS:

After 10pm I was standing Facing The Route 91 Stage On The bottom right foot of stage I heard the first two pops and immediately questioned out loud what it was. My girlfriend said it was probably fireworks I looked up and said "No it definitely wasn't" shortly the gunshots came rapidly and consistently as we faced the field, we both noticed a blonde girl who appeared to be shot in the face, as her face and hands were covered in blood I went underneath the stage and crawled towards the middle/back, as the rounds of shot went off, I stayed underneath the stage. And during a pause in between rounds, I crawled further back towards the other end of stage, I stayed underneath for the duration of all shot leaving behind my purse and phone. After shot stopped we were guided out from underneath where I ran across to a lot in between semi trucks. SWAT told us to get out of area so we ran across the street to office buildings with a group of about 20 people. we hid in the office until approx 3am until officers cleared us and took us to Atlantic Aviation. From there, we were transported to Thomas and Mack where family members picked me up.

On October 2, 2017, contact was made with [REDACTED], telephone number [REDACTED] at Sunrise Hospital. [REDACTED] was advised of the identity of the interviewing Agents and the purpose of the interview. He then provided the following information:

[REDACTED] was attending the Route 91 Fall Harvest concert at the Mandalay Bay Hotel on October 1, 2017. He was standing to the front right of the stage when he heard muffled gunfire. There were multiple gun bursts with intervals of 30 seconds to a minute between gunfire. [REDACTED] estimates that there were eight to ten magazines fired by the gunman. [REDACTED] knew the gunfire was coming from behind him so he went backstage with the girl he was with. [REDACTED] and his friend hid in a sound booth that contained audio equipment. There was an unknown man in this booth who had been shot and was bleeding badly. [REDACTED] gave his shirt to people so they could apply pressure to this man's wound. [REDACTED] waited until he determined it was safe and then tried to find the group he was with.

STATEMENT OF [REDACTED]

[REDACTED] Yeah. [REDACTED] She was at the concert so I - I didn't, um, know what happened to her. And I didn't - she wasn't contacted until later I think by [REDACTED] and them. I don't know.

SS: Okay.

[REDACTED] Um, because I was so out of it tryin' to just stay alive, um, that the people that probably took me to the hospital in the cab they were - they took my phone and they were calling - and I said just text people and do what you can to get someone to tell them where I'm going and they did. And I don't how difficult it was 'cause my phone was gonna die so...

SS: So [REDACTED] is out. She's...

[REDACTED] She was - she was probably called. She was at the concert...

SS: All right.

[REDACTED] ...so I had no idea what happened to her.

SS: So you still haven't heard...

[REDACTED] No. We're in contact now.

SS: Okay.

[REDACTED] They're okay.

[REDACTED] But we had separated because it was so packed they ended up goin', uh, further into the crowd to be closer to the stage. And I couldn't find them and it was just too crowded for me to go so I just stayed - I was by myself here and they were over there.

SS: Okay.

[REDACTED] And then [REDACTED] and [REDACTED] were in the very back but they ended up leaving before anything happened.

SS: So [REDACTED] were closer to the stage?

[REDACTED] Mm-hm.

SS: How close do you think they were?

[REDACTED] Um, I'm not sure 'cause I was - I was right on the center in the grass. Here's the stage right here and right behind me is the staging set or the lighting set.

SS: Okay.

[REDACTED] So I right - here's the staging set I was right here and the stage is right here. They were probably to the right of me, um, 99 - they were probably about maybe a 100 feet but it was just so crowded.

SS: Okay.

[REDACTED] Yeah.

SS: And you were also separated from [REDACTED]

STATEMENT OF [REDACTED]

[REDACTED] Yeah 'cause they had - they had already left though. I had known that they were leaving so I think they left probably 15 minutes or 10 minutes before the - Jason Aldean came on.

SS: Okay. Um, so this was October 1st about 10:00 p.m. Uh, [REDACTED] were closer to the stage.

[REDACTED] Mm-hm.

SS: [REDACTED] left for the evening.

[REDACTED] Yeah. They went back to the...

SS: And you were...

[REDACTED] ...to my belief they went back to the hotel.

SS: And you were by yourself?

[REDACTED] Yeah.

SS: Okay. I know this is gonna be extremely difficult.

[REDACTED] Okay.

SS: And for that I apologize.

[REDACTED] That's okay. It's been difficult all day.

[REDACTED] Um, like, in the - like I said I was right in the middle - I was mid-stage so between the grass and the cement and the staging people behind me that deal with lighting.

SS: Mid-stage. So I'm gonna repeat..

[REDACTED] Yeah. I was mid-stage.

SS: On the cement?

[REDACTED] Almost between the cement and the grass. Yes.

SS: Okay.

[REDACTED] And there's fencing there because that's where all the staging people, like, they do the lighting and, uh, music and all, you know, that's where they were. Right here, fence, I was here and then the stage is right here.

SS: By fencing - were they - like, did they have the sound boards and stuff like that?

[REDACTED] Yeah. Mm-hm.

SS: Okay. Um, what happened next?

STATEMENT OF [REDACTED]

[REDACTED] Um, it was I think about I wanna say 10 to 15 minutes into the concert - maybe 15 minutes into the concert - I can't recollect time very much. Um, one, two, three - yeah maybe 15 minutes further into the concert or his - his act we heard, um -- you know, I say we because there's people all around me -- um, what we thought were fireworks so people were tryin' to look for the sparks and stuff like that or oh there's fireworks that's so cool. And I'm like - they didn't really sound like fireworks and, um, they stopped for a minute and then it happened again where it got louder and longer and I got down because it just didn't sound right. It sounded like a rifle gun. They didn't - and everyone's, like, it - don't worry its fireworks and I'm, like, it's not fireworks. I said there's a shoot - there's someone shooting. And oh don't worry get up we'll - I didn't wanna - I just didn't feel safe at that time...

SS: Mm-hm.

[REDACTED] ...and I could see other people were down. And then the music kept playing so I'm, like, okay well the music's still playing. And then it happened again and right there I saw Jason Aldean run off the stage and I knew something was wrong. And it just - the - the shooting got louder and longer and all of sudden you heard screams. And I - I just stayed down to the ground and was debating which way I should go, what'll I do. Um, and I didn't want to get up because it just - it was so intense and you heard more screams and you heard someone just got hit, someone just got hit. And then so I get even more scared and I'm, like, oh my god. I didn't if they were - I knew that there was something happening from above because you could hear - you could hear it from, uh, near the stage and over towards, like, Luxor and Mandalay Bay. I

didn't hear it towards the left of me I heard it more towards -- and, um, it just - it wouldn't stop and I thought there's about 10 peop- - 10 people that were shooting guns because that's how bad it sounded. It sounded like a rifle and, you know, it was just, um, uh, I guess I'm shitty I don't know my guns very well but it -it just kept going and going and going and going. And you can hear it ricocheting off of - off the metal parts and you can hear people screaming and the crying and I just stayed down and all of a sudden, um, you know I tried to hug myself - curled up because I didn't know what else to do and, um, I got shot in the stomach. This powerful force, like, was - at first I thought it was, like, uh - um, like, uh, um, a baseball - a baseball, like, 'cause it's a forceful, you know, hit or something because it was so powerful it, like, knocked my breath out and then I was, like, no I think I really got shot. And then all of sudden I looked down to my right leg and it's flayed open and I didn't know if it was a gunshot but I - I was bleeding everywhere and, um, I knew that I had to put pressure on my leg so - because I didn't know how bad my stomach was. So I'm - I wrapped my, um - my flannel around my leg and at that point I knew that I needed to - I needed to get out of there and I was thinking which is the best way - the shortest and best way to the exit. And, um, I was being trampled and - and trying to get out there and seeing people get killed and dropping right in front of me, people injured and just everyone trampling over everyone just trying to get out of there. And every time you would hear the gun stop for a minute we would move. And then it would go off again and it just felt like it was even closer and closer. Anyway we kind of just moved at a low pace and I saw - there's a gate or a fence I had to jump over in order to get on to the

other side. And I just thought I had to do it - I saw other people and I did it. And I crawled over to another safe area and kind of just piled on to people on the ground and people just saying don't get up, don't get up. And I told 'em I said I been shot, I been shot.

PF: Can you give us a few minutes, please?

?: Yeah.

PF: Thank you.

[REDACTED] Um, I just told 'em I been shot now - just stay here and stay with us, you know, don't get up and, um, it - just it felt like it was even closer - just it would not stop. Um, and at this point I was like - I - I can't move. You know, um, I - I didn't know what to do. And I didn't - I wasn't thinking about how far the exit was or anything. I just was close to the - to that mid-stage where -- the sound stage or whatever...

SS: Mm-hm.

[REDACTED] ...I was close to that and then you could just see more people dropping and the bullets ricocheted off and I was just trying to protect my head and protect other people around me. And, um...

SS: We need a nurse to get this fixed up.

[REDACTED] Yeah.

PF: Take a pause in the interview. All right, operator, uh, back on the recorder after a short break.

SS: Um, we were at you jumped over the fence and...

[REDACTED] And the shooting kinda stopped and we heard an event person or someone say hurry, hurry, run fast. Um, the shooting had stopped and we kinda just laid for a minute because we didn't know what to believe. And I didn't hear any shooting so I said okay this is my chance and he just kept directing - so everyone was fleeing to this open exit or exit area. And I - you can see the ambulance and, um, the fire trucks and cabs with people just, just in shock and people on the ground and - and a lot of people hurt and I was one of them. And I looked at the ambulance and I looked at my options and I saw the cab driver - a taxi - and I saw people in it and I said, "Please can you help me I've been shot." I said, "Could you please take me to the hospital?" And, um, they opened the door and just, you know, come in and we'll take care of you. And, uh, there's a - um, two females and a male and one of them was keepin' pressure on my stomach, um, where the gunshot wound was. And, um, the cab driver - I said, "Just please just take me to the nearest hospital." And he's like "You been shot." And I said, "Yes." And he was, "You know, you're probably better off going to the trauma center - the trauma hospital and you'll get treated quicker and better and there probably won't be a lot of people there." And so he drove as careful and as fast as he could because we still didn't know how many shooters or what was going on because we were hearing that there's shooting in the street -- excuse me -- so we had no idea what was going -- excuse me -- going on. And, um, so he made it out of there - out of the area safely and then there, you know, he went through red lights for me, he went onto the freeway and tried to, you know, get here as quick as

he could and he - he did. Um, he saved my life because he brought me here and they - the people that were in the car -- and, you know, I had no idea who they were - they were calling my family and friends because I was in no state to call on my phone because it was gonna die. I said, "Please just - just start calling everyone and just tell 'em I got shot." Because nobody knew what happened to me.

SS: Mm-hm.

[REDACTED] And that - what hospital I'm at. And as soon as I got to the hospital they came and they took me right away and got me ready for OR. Um, and I mean they the saw the shape I was in and they asked me who they could call and, you know, I had remembered my sister's number 'cause I don't really know all the people's numbers. And, um, the guy that was in the car made the phone calls because when I woke up from recovery my, um, [REDACTED] and [REDACTED] were there waiting for me 'cause they got the call from - from the guy.

SS: Excellent.

[REDACTED] 'Cause I hadn't talked, you know, they didn't know what happened. Um, so I've been here ever since the night.

SS: That's...

PF: Can I ask one question. When you - when you ran did you run towards the casino...

[REDACTED] Um...

PF: ...or away from the casino.

[REDACTED] It was on the - it looked like a back street or a back parking structure.

PF: Okay.

[REDACTED] Yeah.

PF: Okay.

[REDACTED] And it looked like that was the only way they were directing people but it was hard to say, you know, because I had no idea how [REDACTED] and them got out. Like, I was so worried about them 'cause they were - they were on this side and I went out that way.

SS: Mm-hm.

[REDACTED] So I - I don't have no idea. If the shooting was coming from over there it just - I - I don't know.

SS: Is there anything that we missed that you think we should know?

[REDACTED] Um, no. I mean just - it was just horrific. One person - I found out it was one person that did this. I didn't know until after surgery what happened and I just - just...

PF: Is there anyone - is there anyone that has not been contacted that you would like Las Vegas Police Department to reach out to or is there anyone that you know about that is not accounted for that we would need to follow up on?

[REDACTED] Um, on my party everyone's been - is okay. Um, I just keep thinking of the -the gentleman right in front of me that - his eye was shot out and he worked there. He was part of the, um, part of the event - either a staging person or lighting person. I just have this vision in my head that he was - I couldn't tell if he was dead or - I just know his eye was blown out and I just keep thinking about him hoping that he is okay and someone found him. Um, and, uh, the cab driver I just wanna thank him for saving my life. And I know the hospital is looking into it - their records if he gave his name or video or something to see - just so I can thank him. But, no, I mean it's horrible.

SS: Okay.

[REDACTED] I can't believe there's people unaccounted for - it's scary.

DETAILS I heard about 6 shots to my right. I was facing the main stage. I thought they were fire crackers until I saw the girl in front of me fall to the ground and everyone started getting on the floor. He paused about 6 times (from what I recall). Once we had the chance to get over the divider and behind the control stage in front of the main stage, I could hear the rounds hitting the metal and concrete.

Once I got hit in the head, I ran towards the exit where I was taken to an ambulance.

DETAILS In transition of the song I heard several pops coming from the night. We looked around and thought it was fireworks. Then I looked out there was a woman down. Then more shots were fired we got down then decided to go over the middle railing. More shots were fired we started to run. My husband looked at me and was bleeding from the head. Synch he was out. We continued to run and got separated. More shots were fired. I hid until I knew where the shots were coming from and ran the opposite way. During an earlier set, I remember seeing a man wearing tan clothing that was not typical of everyone else. I remember feeling uneasy about it but was mad at myself for thinking that.

We were standing to the left of the bar in the middle of the crowd. It was toward the end of Jason Aldean, when I heard a few shots go off. I saw a girl + three people to my left go down. I went over to help, because I thought she was too drunk. I saw she had been shot in the abdomen. I then heard continuous shots for at least five minutes. Many people ducked to the floor, but many were turning towards the exit. I ran to the motel six and could still hear shots going off. They sounded like they were from above. It seemed like there was many shooters.

My mom and I heard what we thought was a firework and stayed put. We heard the noise again and it was a couple seconds longer the second time so we walked out toward the left of the stage toward less people and stood. The noise occurred again and we realized it was a gun and we and everyone around ducked. We began running and ducking toward an exit in a fence on the left of the stage and kept falling. My mom kept wanting to stay and duck but I wanted to run. I grabbed her hand and we both fell and as we were on the gravel was when she got shot in the foot. We ran and hid in a bush. DETAILS

On 10/1/17 I was working at the Route 91 Festival. I was on break when I heard the shots, but at first I thought it was fireworks. I only realized it was shots when the mgm notified us over the radio to take cover because there was a shooting. We were with two young individuals and a pregnant woman when we were notified over the radio. We got the three individuals to safety before opening one of the gates with a pin code. After opening the gates we went to open up a trailer that was locked. People that were in the trailer left and other guests that were hurt went into the trailer. We were able to help several people that were injured. The last person we helped was a woman that we put into a burial we wheeled the woman to a truck that was loading people to get them to a hospital. Someone checked her pulse and said she was dead. After finding out she was dead, I can't keep helping.

DETAILS I WAS just about to get on my break with @BBQ Village my co-worker and we had just ordered some food. At first we thought it was fireworks but then it kept going non-stop. we began to run and hide and try to look for an exit, we eventually found one and we ran towards it. I saw people drop left and right also a woman who was shot in the back. we first ran into the Tropicana Hotel but everyone still kept running so I ran onto a bridge that got me into the MGM resort. When I was in there with my co-worker and some other people that were also running away from the festival. ~~these~~ ^{This} couple saw us running and stopped us and asked if we wanted to go up to their room some can be safe. we went up to their hotel until they cleared the MGM. DETAILS I arrived at the event around 2:30 pm. When it was around 10:00pm I heard the first few shots. At first I thought they were fireworks since they then ended. Then came the second round and I saw a hoard of people running that's when I ~~was~~ got up because I was sitting and when towards a gate / exit which the people were running out from. I stayed with some co-workers since I didn't have a phone a we ran across the street going into Tropicana ~~and~~ and running inside. They told us to turn ~~right~~ ^{left} and so we did but suddenly I heard yelling / screaming and people turning back. So then I turned back and ran and turned left going leading out to where there were pools. I ran upstairs and ahead was a gate, it was locked and so I had to jump over. I ran and went into a casino looking place. There was like 2 minutes of peace so that's when I called my twin sister telling her I was fine. After I ended the call people screamed and we headed out and into a staffroom which was not connected with the hotel. We mention

and locked up the doors, barricading the door. There were still chaos outside and fear of being shot down. Me and my co-workers worked at Baja Lobster, with my boss [REDACTED] and her husband [REDACTED]. I'm not sure for how long we stayed in the staffroom since I didn't have a phone but with some of my co-workers phone I'd send a text message, ~~we went out~~ One of the guys went a top of something and peeked out to ask someone where the safe zone once the guy told us and so we ~~all~~ made a group decision to head out to the safe zone. When we got there we found my boss and her husband. Suddenly footsteps on the floor above us could be heard and then people came gushing out. My boss and co-workers and I all ran and we went back into the staffroom, locking the doors again. We stayed there for a long time. All I heard was helicopters after that the hotel was on lockdown. Mom later a security guard came and took us to the pavilion in the Tropicana. We stayed there ~~and~~ until 4 and I went with my boss and co-workers to the house they rented. My mom picked me up with my older sister and I arrived home until 5:30 am. I worked at Baja Lobster as the cashier taking orders and giving orders of the people.

DETAILS At the route 91 event I was working as a cashier when the shootings had first occurred I was attending a customer woman. My customer was very alarmed and all I thought that it was fireworks. That's how they really sounded like. My boss and I were standing for a while worried and really not thinking much of the shots being heard. But everyone started running away and so my boss yelled at me to get on the floor while she called her husband making sure he was okay. My customer had hid behind the table with me I was very calm and I was helping her stay calm as well. I was calling my mother and told her what was going on and telling her basically my last words. to small for me to fit so I gave up on that idea. Meanwhile many people have ran away. A security guard came to the table and told us (the people hiding there) that we had to get out of there. So that's when I get up and I start running as fast as I can. Praying that I wouldn't get shot. And if I did then I would continue running. I ran behind some bleachers and it sounded like there were people shooting from the ground (ground shooters) there was one near the Ha gate entrance. I don't know what that means but continuing... I went through a short cut my boss had taught me earlier that day. I was also desperately looking for my sisters but ~~I~~ I knew they would be okay so I just knew I had to get myself to ~~safe~~ safety. I ran all the way to an exit and all the way to E Harmon street. I only ended up with a scraped elbow. Nothing of my possession was lost. I worked at Baja Lobster as a cashier taking orders.

DETAILS I was a victim of the Route 91 shooting on 10/1/17. I was standing centered in the crowd facing the stage. We all heard a faint voice that sounded like fire crackers to our right. the artist playing (Jason Aldean) continued playing for a few minutes after these fire cracker noises (gun shots) where first heard. A girl in our group [REDACTED] was the first that got shot in the arm and started screaming. Every member in my group either ran or froze and dropped to the ground. I tried getting my friends to get up and run but shots started to be fired again. I dropped to the ground laying flat on my stomach. ~~My~~ My head was pointed towards Mandalay Bay as I was laying. All of a sudden I felt a surge of heat on my upper, mid, and lower back. I knew I had been shot I immediately threw myself up and ran to the left side of the stage where an emergency exit was flooded with people running away from the fire. I ran to the Tropicana outdoor parking. A man and a woman saw I was shot and layed me on the ground to get my 3 open wounds to stop

After that we walked as fast as we could to Las Vegas Blvd where a group of people ran into the road and stopped a Ambulance for me. I was then loaded into the Ambulance and taken to Sunrise.

I think I was one of the first people shot on 10/1/17. The shooting started at 10:05pm and I was already out of the venue by 10:08pm. I know this because I called my boyfriend to get ahold of my parents when I first exited the venue.

[REDACTED] And so, um, while we were on the ground everyone was, "Stay down. Stay down." Everyone is screaming. And I was kind of out of it to be completely honest. I had just gotten shot so to me I didn't see a bunch of stuff. I was more s- looking at my friends and thinking, "I'm not gonna die. I'm not gonna close my eyes." Um, so immediately my - my guy friend that is an EMT and the girl that's an EMT and a couple of my other buddies picked me up and they carried me to, uh, a trailer. I just remember being inside of a trailer. And in the corner of the trailer. And everyone is leaning over me crying, screaming and I kept tellin' everybody, "Listen I'm - I'm gonna be okay." Um, I just kept thinking about my nephew and praying and I just kept...

TP: Okay.

[REDACTED] And then they all picked me up and if it wasn't for all of them I honestly probably would have just bled to death 'cause the blood went straight to my chest. And, uh, they carried me to, like, past these fences. Um, I just kept hearing them say, "Hold her arm. Hold her head." And then we went past, like, a fence and there was, like, a pick-up truck. And I don't even know where the pick-up truck came from but I don't even know how my friends found the pick-up truck. They just - they said, "There's trucks and they're loading people up." So we - they carried me to this truck and they took, like, a railing from, like, where you block off people from entering into an area - threw me on that railing and threw me in the back of the truck. And the lady who was driving the truck didn't want to throw me into the back of the truck. She said, "There's a lot of people."

STATEMENT OF [REDACTED]

TP: Mm-hm.

[REDACTED] And my - my guy friend was, like, "We can throw as many people as we can back here." So they threw one guy and they threw in me and, uh, the guy had gotten shot, like, in the groin...

TP: Mm-hm.

[REDACTED] Then he got shot - shot in the ches- chest. And my buddy and my buddy's girlfriend who are both EMT's just held on to my chest and back of my chest and, uh, my buddy was, like, "Follow that ambulance." So whoever was driving the truck just followed the ambulance to...

TP: All right.

[REDACTED] ...uh, this hospital.

TP: Okay.

[REDACTED] Uh, they immediately got me out of the back of the truck and loaded me up onto one of these beds, wheeled me in and sliced me on the side to put in a tube...

TP: Mm-hm.

[REDACTED] ...so they can drain my lungs. There was a female to the right and a man to the left. I think they were already dead because the girl was just laying there and she had a bullet through her heart.

STATEMENT OF [REDACTED]

[REDACTED] And the guy's head was completely shot through. They wheeled me up and they took me to the ICU. Uh, I was vomiting and just completely sick and I called my mom and called my dad 'cause those were the two numbers that I had memorized, um, off of the phone but it - the phone systems weren't really working either 'cause everyone is calling.

TP: Mm-hm.

[REDACTED] Uh, at that point, uh, my family all c- communicated in their own ways...

TP: Right.

[REDACTED] ...through cell phones, through showing up to someone's house. Uh, and my dad and my brother flew here and my mom and my godmother drove here at, like, 3:00 am and no one's left my side since.

TP: Okay. Um, you said that you - those were the only numbers you had memorized. So you had a phone? So you don't have the phone now. Correct?

[REDACTED] No my cell phone was in my purse along with my ID and my credit cards.

TP: Okay.

[REDACTED] And I remember when they all picked me up I consciously went to go grab it and I just couldn't grab it.

TP: Okay.

[REDACTED] So I just left it there.

TP: Do you have any video or anything on your phone of the incident?

TP: Okay.

[REDACTED] It was in my purse.

TP: Okay.

[REDACTED] And it was on my shoulder...

TP: Okay.

[REDACTED] ...at the moment. I was fully aware of everything going on. That's why I thought when it - when the shots first went I heard it from behind me.

TP: Mm-hm.

[REDACTED] And it sounded like firecrackers.

TP: Okay.

[REDACTED] Then it came up this way to my right hand side and I was up at the stage toward the right hand side. Really close to the stage.

TP: Okay.

[REDACTED] And, uh, I just heard people say, "Get down." And, uh, I realized that that wasn't - it was the - that sound of...

[REDACTED] I - I'm at the right hand side of the stage and I had looked to my diagonal of the right so towards the right.

TP: Uh, and then, uh, do you know if any of your friends have video on their phone of that moment from when the first volley of fire started to...

[REDACTED] I haven't asked.

[REDACTED] I just didn't have my cell phone out at that very moment.

TP: Right.

[REDACTED] Because I had just gotten shot so I was - I was more focused of keeping my eyes open and staring at my friends so I didn't - didn't just let go.

[REDACTED] Yes.

WH: Okay, uh, approximately where were you at when the incident happened there? And,
basically, did you see anything or what did you guys do?

[REDACTED] So my husband and I were up close to the stage watching the last performance of
the evening, um, kind of in the crowd of people that was near the stage standing, um,
enjoying the music and just all of a sudden heard kind of four pop sounds that we
kinda were all confused about. I didn't know what it was at first. Um, and then kinda
the recollection - recollection I think hit us both kind of at the same time that whatever
it was it wasn't good. Um, and then people started to kind of put the connection

together and scramble. Um, when the next round came I just remember people shouting, "Get down. Get down." So my husband and I got down. And then, um, I felt something funny happened in the back of my leg, my thigh-butt area. Um, and then I remember [REDACTED] saying after - I remember him laying on top of me saying, "I think I've been shot." And then the next thing there was a military man that came by and told us that after it stopped we needed to try and run after he had stopped 'cause, I mean, he was probably reloading so we should get up and try and run. And I tried to get up and then I couldn't. So now that I knew I was really hurt and I kept saying to [REDACTED] "I can't. My leg won't work." So then they helped me. [REDACTED] helped me and the other man helped me. And we just ran. And then when the shots started again we got down. And then we tried to - we when I think realized there was the bar, we could try and get cover. There were tables on a bar area where we could try and get cover. So then we just started crawling towards that area. And then I just - there was another person that came up and helped us and tried to help [REDACTED] 'cause, like, by then I couldn't really scramble or run. So then they - the guy was - he had me on one side. And then there was a nurse. She came and helped us. And she put me on the other side of her arm. And then we just started going for - trying to get away from the stage area 'cause we figured he was probably shooting at the stage area 'cause there are more people there. And then - and then we started going towards the crowd where they were trying to exit. And the nurse lady said, "Don't. She can't make it in that throng of people. She'll be on the ground and get hurt when you go over where there's not so many people." So then -

then - then another person came and said there was a medic tent or she realized - I don't remember. Someone said something about a medic tent. So then they took me there. And then they started an IV on me. And then they turned the lights off 'cause they said there were more shooters and that they would probably shoot at the tent, so they couldn't have the lights on in the tent. And they told us we needed to get out of the tent 'cause they thought that might be a target. And - and then we started to go out of the tent. And there was another person there. And then I started to black out, I think, 'cause I just remember kind of going in and out. And then somebody else helped us and came and pick me up and put me in a golf cart. And then I just remember them putting me in the ambulance. And then I don't - then we just - I remember at the hospital I was really confused. The nurses - all kinds of people and people everywhere and they just were trying to help people as best as they could.

?: (Unintelligible).

[REDACTED] And then all I remember I was lucky 'cause I didn't have to be helped right away. They kept telling me that my injury wasn't critical, so that was good, and that they had to help the people that were in critical condition. And then [REDACTED] and I had gotten separated at one - when I got to the hospital. Then they found him for me. And then the next morning they had to do surgery to repair what was happening with me.

WH: Okay.

[REDACTED] And then it's still lodged kind of underneath my ribs. But they said that's okay and they don't usually - it's not endangering anything. They don't like to go in and get 'em 'cause a lot of times that causes more harm than good.

WH: Yes.

[REDACTED] So and they said that, um, it should - I'm lucky 'cause it - it should all heal. It's just a matter of time.

DETAILS We heard what sounded like firecrackers or fireworks also just at first seemed like the audio was malfunctioning. We immediately got down to the ground and about one minute later saw people running in every direction. We ran out to a parking lot where we got in a car but couldn't drive anywhere due to fences. Everyone in the car was saying to get out, as we did people were moving bodies out of the way and tying shirts around wounds. We kept running slid under a fence to a hangar until we could be moved to safety by law enforcement.

DETAILS My friend and I were on the right side of the stage, closest to Las Vegas Blvd. We were pretty close to the stage, my friend facing the stage and I was sideways to get a better view. Jason Aldean had been singing when we heard what we thought was firecrackers. Everyone was looking to see what happened but the music continued. It happened again & some people ducked and some people kept saying it was a firecracker. It didn't make sense because I didn't see smoke & I remember thinking they need to find the guy & stop him. I think the third time we heard it Jason Aldean stopped playing & ran & we all realized it was bad. I looked to my left & realized my friend was on the ground. There were people on the ground with him & I asked what happened. Someone said stupid he has been shot. I immediately fell to the ground next to him as people ran over us. I didn't know what to do & just kept calling his name. There was still shooting and I was texting my husband that he needed to come get me & what had happened to our friend. Someone came to me & told me I needed to run for safety, so scared I left my friend & ran to jump the middle barrier. After jumping over both a man saw me & told me to get down as we heard

more gun fire. He told me to run for cover but I told him I couldn't leave my friend. He asked for his name I gave it to him as he tried calling over to the other side for him. I knew he wouldn't respond so I ran toward the stage & to the left. I saw an opening I went back between the barriers to try to get back to my friend. As I ran I saw people coming out from under the stage & others being carried out. I jumped back over to the right side to my friend. When I got to him a man was holding his head I told him he was my friend & he asked for his name & started talking to him telling him to hold on. ~~Another~~ He told me to try to find help. I got up & looked around but there was no one. Everyone was helping others on the ground. I finally found someone & they came back with me. The two guys talked about my friend & that he was shot in the back of the head. One wanted to move him the gentleman holding his head said no cause as long as he was there he knew he was breathing. They had me elevate his feet for a little while, as they told me to just be calm & breathe. Finally another guy came up & asked if I was ok. When I replied yes he told me I really should run for safety & that they would take care of my friend. It took a little while but I finally listened. I hopped the barrier again & ran/crouched along the side of the left stage to the back. In the back another woman encouraged me to go with her as we saw people in black going toward the stage. I made it to the exit & watched as they were getting injured out. I well been getting calls from family & friends telling them I was ok but didn't know about my friend. I was watching to see if they were bringing him out until my husband called & urged me to meet him somewhere safe. He said the radio said there was still a shooter somewhere. I walked to Hooter's with some other people & found my husband. We waited for a little while there & then drove to Sunrise hospital to try to find out about our friend.

DETAILS

My friend () and Airfriend () had walked over to the porter offices when the first shot were fired. I began banging on () door to get out someone is shooting. The sound of a few shots quickly became like a machine gun as () ran out of the bathroom. () was holding () hand and () was holding mine. We ran to the nearest exit but only they made it out before I got caught by the hundreds of people running out of the same gate. I was getting squashed against the gate by many people trying to get out. () still had a hold of my hand and her and () pulled on it until they got me out. We then continued to run towards the back of Tropicana Hotel. As we ran a guy running next to us got shot on his leg. People were dropping from the gates to our left and some were getting trampled when they fell on the floor. We continued to run past a church and then into an open door at the Tropicana. We pushed our way into an elevator/service elevator I believe and began climbing the ladders on the side of the building for the roof. I think we went up

3 or 4 sets of stairs before we began crawling underneath some AC vents to hide. We hid there for about 20-30 minutes before we saw another group of people also hiding walk by. We got together with them and decided to walk down into the kitchen and find a better hiding place. We then hid in a food storage hallway using a huge metal freezer to block us in. We remained there until a security guard came looking for people to bring us to a big room where SWAT was. They had cleared our building and brought everyone to the pavilion with about 2000 people and provided us with water and towels. My left arm was bleeding from cuts and I had a huge bump on my arm from being pinned on the gate.

During Jason Aldean I initially heard what I thought was firecrackers. Then maybe the sound/stage equipment was messing up. Then all the sudden mass shooting, everyone screaming, pushing and running away. The shooting stopped on 3 occasions and began again.

I was standing next to the video guy in the silver gated off area about 15-20 rows back.

My name is [REDACTED] and I worked at the Route 91 Festival starting from 9-29-2017 to 10-01-2017 and I wanted to let you know what I hear and what I saw. It was around 10:02 or 10:05 when I was at the bar where I hear the first 4 shots. I went down and my coworker starting laughing, and they asked me: what are you doing, and I said there are shots and they said no, but 10 seconds later we hear the first down round, it did sound like small weapon, then stopped, and again 10- or 15 seconds later the shooting started, the difference what I noticed it was a bigger weapon, and then he just didn't stop. Felt forever at 10:15 I called my wife and asked her to pray for the people that was there and also to get good by in case I didn't make it after I talked to her. The police told us to start moving out of there.

I was stand on the back right corner of the main stage when I heard about 6, what sounded like firecrackers. No one moved at first but as soon as the performer ran off the stage, everyone started running. I then knew they were gun shots. My fiancé and I immediately started running. Everyone but the floor and so did we (still by the main stage). I seen multiple shots hit the floor by my left side. During the Jason Anderson concert (approx 4 songs in) we heard popping sounds. I remember looking up to my right towards the hotel thinking that it was coming from above. People started ~~run~~ running and I heard more popping sounds. We ran over the gate across the street to the parking lot with multiple buses. A girl was shot in the hand here. More popping sounds and then ran towards a townhome complex. ^{heard popping sounds were as well.} From there we ran towards the airport and hid near a SeaCan, behind cars until we were let in @ Sundance Helicopters.

JM: Mm-hm.

JM: Just take your time.

And, um, just told everybody get up, let's go, let's get outta here. But, I don't know how soon after we got separated, because, ah, I couldn't walk. So, at some point we got separated.

JM: Mm-hm.

[REDACTED] There's a railing about this high. And, ah, I don't know how I made myself over there, but I got over there and bend over, fell into this one or two people, um, and at that point started what I thought was blacking out. Ah, and then, ah, I told well, one of the guys asked me actually, "Are you hurt?" Yeah, I stand there, so then two guys came up to me and, um, started checking me out and I like to think they're Vets, 'cause they knew what they were doing. Um, one guy apologized, he said, "This is gonna hurt, we gotta move you." He put his finger in my - in my wound.

DK: In your back?

[REDACTED] My back. And, ah, then I started walking with 'em out, but it was painful. So, I don't remember too much of that walk. DM: Mm-hm.

[REDACTED] It was a barrier or whatever. I jumped over that, climbed over it, jumped down and I ran to the right of the stage where there's a cement wall and I didn't know if I should stay there, if there were more shooters like in the crowd that could get me.

DM: Sure.

[REDACTED] I knew that shooter was there. And I was kind of protected close to that wall. But I didn't want to stay there.

DM: Right.

[REDACTED] And so, um people are encouraging me to stay there. There were a couple of other people there. And I was just like, I didn't know where to go. And I was looking around and I saw a wide open parking lot and I figured if you're away from the crowd at least they're maybe they're not shooting at the crowd or at me. I feel so bad leaving.

DETAILS

We were seating in the VIP bleachers west of the stage Sec B Row C seats 14-16. We heard what we thought was a string of firecrackers being set off in the area just north of us where the restrooms + some food vendors were located. Following the firecrackers, the band continued to play, but then we heard rapid shots and saw the band run off the stage. All the people around us, including us, fell to the floor. The shots kept coming so we stayed down. People were panicked, crying, calling out for family + friends. We stayed down until the shots stopped. People were getting up and running up the stairs + down to the infield. So my family crept low down to the infield and went under the bleachers. From there, we could see injured people in the infield - some being worked on by others (CPR). Many had blood. They were taking some men

DESCRIPCION DETALLADA

belts off to use as tourniquets. After what may have been 20 min or so, there were men in the infield (maybe veterans, unmarked police or just brave men) who came and told us & all the others to get out and run for the exit at the south end. So we did. We ran to the Tropicana, then to the MGM just trying to get further away.

When we heard the gun man was shooting from the 32nd floor of Mandalay Bay, we couldn't believe it. The shots sounded like they were coming from just above us - the VIP lounge area. There's no way I would have thought they could be that loud from across the street.

DETAILS I was seated in Section B Row C Seat 16. The first round of "shots" sounded like they came from the west side of the seats close to the bathrooms. Then more "shots" erupted. It sounded like it was coming from above us. I thought maybe from a drone because of the height the shots seemed to be coming from. We layed on the floor of the seats until the shots stopped. When we made our way down and out of the stands there were bodies laying what seemed like everywhere.

DETAILS:

I was working at the event on the side of Las Vegas Blvd across from the Wxor. I was working by the restrooms. After taking my break I heard the noise thinking they were fireworks. I came out of the bathrooms to check where the fireworks were. Then I realize they were shots, and saw people running around and some people hurt. There was a man that was placed on a table and he was bleeding. Between taking video and not knowing what to do, we got inside the metal box where the cleaning supplies were stored. We stayed inside the box until a man came to tell us to get out because we weren't safe. I went to the employee entrance. I was with two of my female cousins. But I lost my cousins. When I got out to the street I saw people hurt on the street. I got to the car and we stayed there for about 3 hrs. God saved my life.
